

IV Therapy

Colorado Mountain College's EMT-Intravenous Therapy class provides specific training for those interested in obtaining cognitive and skill practice as required by Colorado Prehospital Care Program for EMT Basic Level IV Approval. This class examines criteria, procedures and techniques for ICV therapy, discusses fluid and electrolyte balance and principles, and treatment for shock. This two credit class consists of 24 classroom hours as well as at least one day of clinical work in a hospital setting. Students who earn a "B" or better in the class and complete ten successful Intravenous Therapy patient contacts will receive a Colorado Mountain College Certificate of Completion.
