

You may be granted regular admission to Colorado Mountain College if you are a high school graduate, or have earned a General Educational Development Certificate (GED). If you are not a high school graduate, you may also be admitted if you are 17 years of age or older.

This waiver is not required for courses designated for minors.

Process for Underage Admission

Most underage students will be admitted through the College’s Concurrent Enrollment (CEPA) partnerships with local K-12 education providers.

Students who do not attend with a local K-12 educational provider will be subject to the same eligibility requirements as CEPA students.

1. Students in grades 9-12 are eligible. Students must prove they are at a 9th grade level in their education.
2. Students must demonstrate readiness for college level work by meeting placement scores for college level English, reading, and math, if required for the course(s). Underage students are not allowed to enroll in remedial education courses. The student should provide all placement test scores, such as SAT, ACT or other standardized tests. If the student does not have placement test scores they will need to schedule an appointment to take the Accuplacer prior to their admissions meeting.
3. Students and their parent or guardian are required to meet with a College Counselor/Advisor or designated staff member to determine eligibility for admission, appropriateness of course selection, review college expectations and complete this waiver form. College Counselor/Advisor will consult with the course instructor and provide a recommendation on enrollment. Final approval rests with the Dean of Student Affairs or the Assistant Dean of Instruction.
4. If approved, a responsible parent or guardian must sign the waiver form indicating that the student/parent has been advised regarding the expectations of the college. Students will also be required to sign a separate Release of Information form.
